More Information:

Situated within 2kms of the iconic Bran Castle, the villa has beautiful views of the majestic Bucegi mountains & the village of Predelut. Surrounded by forests and beautiful landscape gardens, the villa sits almost hidden away amongst the towering 30 year old trees.

Built by the master architect Paul Veseli, an award winning and renowned architect of Sibiu this incredible heritage property tells a story of what Bran once used to be, a place for tranquility and reflection closer to nature. With neighbours like Sextil Puscariu's former family home, this home is steeped in history and heritage and tells a story of the land, the people and the culture of Transylvania.

This will be my sixth yoga retreat, with returning guests knowing they will be with like-minded people who want to learn or develop their yoga practice whilst disconnecting from their day to day lives.

Your breakfast and dinner will be home-cooked onsite, whilst you have the flexibility to explore the surrounding area and enjoy a lunch out or order the €15 packed lunch.
